WELCOME TO SPINE ACROSS THE SEA 2012!

On July 30-August 2, 2012, the Japanese Society for Spine Surgery and Related Research (JSSR) and the North American Spine Society (NASS) will hold a combined program, Spine Across the Sea 2012, an international multidisciplinary continuing medical education meeting. The meeting will provide physicians from around the world an opportunity to share information on spinal problems. While most participants will come from the United States and Japan, we expect attendees from all over Asia, the Americas and Europe.

The objectives of this international, interdisciplinary meeting are:

- To promote discussion of new scientific developments and best practices within spinal care organizations.
- To foster research and training through didactic sessions and interactive discussions.
- To provide an environment for the exchange of ideas in spine care with experts and peers from around the globe.
- To analyze international health policy trends and their impact on society.
- To provide opportunities to strengthen professional relationships worldwide.
- To foster young investigator development.

This meeting is designed for all physicians caring for patients with spinal disorders. We encourage researchers and other health care professionals involved in spine care to attend as well.

A technical exhibition will take place during Spine Across the Sea 2012. The purpose of the show is to inform registrants about products and services relevant to the practice of spine care. Exhibitors can gain broad exposure to a variety of attendees from the US, Japan and the Pacific Rim. Your company and products are valuable to registrants as they explore the ever-expanding field of spine care. Space is limited, so register now!
